## INDEPENDENT AUDITOR'S REPORT

**To: THE SHAREHOLDERS, THE BOARD OF DIRECTORS AND THE BOARD OF MANAGEMENT  
BACH TUYET COTTON CORPORATION**

We have audited the accompanying Financial Statements of Bach Tuyet Cotton Corporation (hereinafter referred to as "the Corporation"), which were prepared on 20 March 2026 (from page 6 to page 38) including the Balance Sheet as of 31 December 2025, the Income Statement, the Cash Flow Statement for the fiscal year then ended and the Notes to the Financial Statements.

### Responsibilities of the Board of Management

The Corporation's Board of Management is responsible for the preparation, true and fair presentation of the Financial Statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Financial Statements; and responsible for the internal control as the Board of Management determines necessary to enable the preparation and presentation of the Financial Statements to be free from material misstatement due to fraud or error.

### Responsibilities of Auditors

Our responsibility is to express an opinion on these Financial Statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing (VSA). Those standards require that we comply with ethical standards and requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation and true and fair presentation of the Financial Statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Board of Management, as well as evaluating the overall presentation of the Financial Statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Opinion of the Auditors

In our opinion, the Financial Statements give a true and fair view, in all material respects, of the financial position as of 31 December 2025 of Bach Tuyet Cotton Corporation, its financial performance and its cash flows for the fiscal year then ended, in conformity with the Vietnamese Accounting Standards, the Vietnamese Enterprise Accounting System and relevant statutory requirements on the preparation and presentation of the Financial Statements.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2025

Notes to the Financial Statements (cont.)

---

### **IV. APPLICABLE ACCOUNTING POLICIES**

#### **1. Accounting convention**

The Financial Statements are prepared on the accrual basis (except for the information related to cash flows).

#### **2. Foreign currency transactions**

Transactions denominated in foreign currencies are converted at the exchange rate ruling as of the transaction dates. The balances of monetary items denominated in foreign currencies at the end of the accounting period are converted at the exchange rate prevailing on that date.

Foreign exchange differences arisen from foreign currency transactions during the year shall be included into financial income or financial expenses. Foreign exchange differences arising from the revaluation of foreign currency-denominated monetary items at the end of the accounting period, after netting out increases and decreases, shall be included into financial income or financial expenses.

The exchange rate used to convert foreign currency transactions is the actual exchange rate ruling as at the time of these transactions. The actual exchange rates applied to foreign currency transactions are as follows:

- For receivables: the buying rate ruling as at the time of transaction of the commercial bank where the Corporation designates the customers to make payments.
- For payables: the selling rate ruling as at the time of transaction of the commercial bank where the Corporation supposes to make payments.
- For acquisition of assets or immediate payments in foreign currency (not included into payable accounts): the buying rate of the commercial bank where the Corporation makes payments.

The exchange rates used to re-evaluate the ending balances of monetary items in foreign currencies are determined according to the following principles:

- For foreign currency deposits: the buying rate of the bank where the Corporation opens its foreign currency account.
- For monetary items denominated in foreign currency classified as other assets: the buying rate of Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) where the Corporation regularly conducts transactions.
- For monetary items denominated in foreign currency classified as liabilities: the selling rate of Joint Stock Commercial Bank for Foreign Trade of Vietnam (Vietcombank) where the Corporation regularly conducts transactions.

#### **3. Cash and cash equivalents**

Cash includes cash on hand and cash in bank. Cash equivalents are short-term investments with a maturity of three months or less from the date of investment, which can be readily converted into a known amount of cash and are not subject to significant risks in conversion to cash at the reporting date.

#### **4. Financial investments**

##### **Loans**

Loans are measured at costs less allowance for doubtful debts. Allowance for doubtful debts of loans is made on the basis of estimated losses.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2025

Notes to the Financial Statements (cont.)

---

### *Investments in subsidiary*

A subsidiary is an entity controlled by the Corporation. Control is achieved when the Corporation has the ability to control the financial and operating policies of the investee in order to obtain economic benefits from the activities of that enterprise.

### *Initial recognition*

Investments in the subsidiary are initially recognized at costs, including the cost of acquisition or capital contributions plus other directly attributable transaction cost. In case of investment in non-monetary assets, the costs of the investment are recognized at the fair value of non-monetary assets at the arising time.

### *Provisions for impairment of investments in the subsidiary*

A provision for impairment losses on investments in the subsidiary is recognized when a subsidiary incurs losses, with the provision amount determined as the difference between the Corporation's actual investment cost in the subsidiary and the investee's actual equity multiplied (x) by the Corporation's ownership interest in such subsidiary. If the subsidiary is consolidated into the Consolidated Financial Statements, the basis for impairment provisions is the Consolidated Financial Statements.

Any increase or decrease in the provisions for impairment of investments in the subsidiary required to be recognized as of the balance sheet date is recorded into financial expenses.

## 5. Receivables

Receivables are recognized at the carrying amounts less allowances for doubtful debts.

The classification of receivables as trade receivables and other receivables is made according to the following principles:

- Trade receivables reflect receivables concerning the commercial nature arising from purchase and sale transactions between the Corporation and customers who are independent to the Corporation.
- Other receivables reflect receivables not concerning the commercial nature and irrelevant to purchase and sale transactions.

Allowance is made for each doubtful debt on the basis of estimated loss.

Increases/(decreases) in the obligatory allowance for doubtful debts as of the balance sheet date are recorded into general and administration expenses

## 6. Inventories

Inventories are recognized at the lower of cost or net realizable value.

Cost of inventories is determined as follows:

- For materials and merchandise: Costs comprise costs of purchases and other directly relevant costs incurred in bringing the inventories to their present location and conditions.
- Work-in-process: Costs comprise costs of main materials, labor and other directly relevant costs.
- For finished goods: Costs comprise costs of materials, direct labor and directly relevant general manufacturing expenses allocated on the basis of normal operations.

Stock-out costs are determined in accordance with the weighted average method and recorded in line with the perpetual method.

## BACH TUYET COTTON CORPORATION

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2025

Notes to the Financial Statements (cont.)

---

Net realizable value is the estimated selling price of inventories in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Allowance for devaluation of inventories is recognized for each type of inventories when their costs are higher than their net realizable values. Increases/(decreases) in the obligatory allowance for devaluation of inventories as of the balance sheet date are recorded into costs of sales.

### 7. Prepaid expenses

Prepaid expenses comprise actual expenses incurred and relevant to financial performance in several accounting periods. Prepaid expenses of the Corporation mainly include land rental, expenses of tools and expenses of fixed asset repairs. These prepaid expenses are allocated into costs over the prepayment period or period in which corresponding benefits are realized.

#### *Land rental*

Prepaid land rental reflects the rental prepaid for the land being used by the Corporation and is allocated into costs in accordance with the straight-line method over the lease term (i.e. 50 years).

#### *Expenses of tools*

Expenses of tools being put into use are allocated into costs in accordance with the straight-line method for the maximum period of 92 months.

#### *Expenses of fixed asset repairs*

Expenses of fixed asset repairs incurred once with high value are allocated into costs in accordance with the straight-line method for the maximum period of 54 months.

### 8. Tangible fixed assets

Tangible fixed assets are presented at historical costs less accumulated depreciation. Historical costs of tangible fixed assets comprise all costs incurred by the Corporation to acquire the assets up to the time when it is brought to its working condition for its intended use. Subsequent costs are added to historical costs of fixed assets only if it is probable that future economic benefits associated with the asset will flow to the Corporation. Subsequent costs that do not meet the above conditions will be recognized as operation costs during the year.

Upon disposal or liquidation of a tangible fixed asset, its historical cost and accumulated depreciation are derecognized, then any gain or loss resulting from such disposal is included in the income or the expenses during the year.

Tangible fixed assets are depreciated in accordance with the straight-line method over their estimated useful lives. The depreciation years applied are as follows:

<u>Fixed assets</u>	<u>Years</u>
Buildings and structures	03–50
Machinery and equipment	02–15
Vehicles	05–15
Office equipment	01–08
Other tangible fixed assets	01–05

### **9. Intangible fixed assets**

Intangible fixed assets are presented at initial costs less accumulated amortization.

The Corporation's intangible fixed asset includes computer software. Expenses attributable to computer software, which is not a part associated with the relevant hardware, will be capitalized. Costs of computer software include all the expenses paid by the Corporation until the date the software is put into use. The computer software is amortized in accordance with the straight-line method in 5 years.

Upon disposal or liquidation of an intangible fixed asset, its initial costs and accumulated amortization are derecognized, then any gain or loss resulting from such disposal is included in the income or the expenses during the year.

### **10. Construction-in-progress**

Construction-in-progress reflects the expenses (including relevant interest expenses following the accounting policies of the Corporation) directly attributable to assets under construction, machinery and equipment under installation for purposes of production, leasing and management as well as the repair of fixed assets in progress. These assets are recorded at historical costs and not depreciated.

### **11. Payables and accrued expenses**

Payables and accrued expenses are recorded for the amounts payable in the future associated with the goods and services received. Accrued expenses are recorded based on reasonable estimates for the amounts payable.

The classification of payables as trade payables, accrued expenses and other payables is made on the basis of following principles:

- Trade payables reflect payables of commercial nature arising from the purchase of goods, services, or assets, of which the seller is an independent entity with the Corporation, including payables for import through entrustment.
- Accrued expenses reflect expenses for goods, services received from suppliers or supplied to customers but have not been paid, invoiced or lack of accounting records and supporting documents; pay on leave payable to employees; and accrual of operation expenses.
- Other payables reflect payables of non-commercial nature and irrelevant to purchase, sales of goods or provisions of services.

The payables and accrued expenses are classified as short-term and long-term items in the Balance Sheet on the basis of their remaining term as of the balance sheet date.

### **12. Provisions for severance allowances**

The Corporation is required to pay severance allowance to employees who have been employed by the Corporation on a regular basis for twelve (12) months or more, for the period during which unemployment insurance contributions have not been made, upon termination of their employment contracts. The provision for severance allowance is made at a rate equal to one-half (1/2) month of average salary plus salary allowances (if any) based on the average of the most recent six (6) consecutive months prior to the date of the Financial Statements, for each year of service.

Increases or decreases in the provision for severance allowance required to be recognized at the balance sheet date are recognized in general and administrative expenses.

### FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2025

Notes to the Financial Statements (cont.)

---

#### 13. Owner's equity

##### *Owner's capital*

The contributed capital is recorded according to the actual amounts invested by shareholders.

##### *Share premiums*

Share premiums are recorded in accordance with the difference between the issuance price and face value upon the IPO, additional issue or the difference between the re-issuance price and carrying value of treasury shares and the equity component of convertible bonds upon maturity date. Expenses directly related to the additional issue of shares and the re-issuance of treasury shares are recorded as a decrease in share premiums.

#### 14. Profit distribution

Profit after tax is distributed to the shareholders after appropriation for funds under the Charter of the Corporation as well as legal regulations and approved by the General Meeting of Shareholders.

The distribution of profits to the shareholders is made with consideration toward non-cash items in the retained earnings that may affect cash flows and payment of dividends such as profit due to revaluation of assets contributed as investment capital, profit due to revaluation of monetary items, financial instruments and other non-cash items.

Dividends are recorded as payables upon approval of the General Meeting of Shareholders.

#### 15. Recognition of revenue and income

##### *Revenue from sales of merchandise, finished goods*

Revenue from sales of merchandise, finished goods shall be recognized when all of the following conditions are satisfied:

- The Corporation transfers most of risks and benefits incident to the ownership of merchandise, products to customers.
- The Corporation retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the merchandise, products sold.
- The amount of revenue can be measured reliably. When the contracts stipulate that buyers have the right to return merchandise, products purchased under specific conditions, the revenue is recorded only when those specific conditions are no longer exist and buyers retains no right to return merchandise, products (except for the case that such returns are in exchange for other merchandise or services).
- The Corporation received or shall probably receive the economic benefits associated with sale transactions.
- The cost incurred or to be incurred in respect of the sale transaction can be measured reliably.

##### *Revenue from provisions of services*

Revenue from provisions of services shall be recognized when all of the following conditions are satisfied:

- The amount of revenue can be measured reliably. When the contract stipulates that the buyer is entitled to return the services provided under specific conditions, the revenue is recognized only when these specific conditions are no longer existed and the buyer is not entitled to return the services provided.
- The Corporation received or shall probably receive the economic benefits associated with the provision of services.
- The stage of completion of the transaction at the end of reporting period can be measured reliably.
- The costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

In the case that the services are provided in several accounting periods, the determination of revenue is done on the basis of the volume of work done as of the balance sheet date.

FINANCIAL STATEMENTS

For the fiscal year ended 31 December 2025

Notes to the Financial Statements (cont.)

---

### **Interest**

Interest is recorded, based on the term and the actual interest rate applied in each particular period.

### **Dividends and profit received**

Dividends and profit received are recognized when the Corporation has the right to receive dividends or profit from the capital contribution. Dividends received in the form of shares are accounted for by tracking only the increase in the number of shares held, with no recognition of the value of the shares received.

### **16. Revenue deductions**

Revenue deductions include trade discounts, sales returns incurred in the same period of providing products, merchandise, services, in which revenue is derecognized.

In case of products, merchandise, services provided in the previous years but trade discounts, sales returns incurred in the current year, revenue is derecognized as follows:

- If trade discounts, sales returns incur prior to the release of the Financial Statements, revenue is derecognized on the Financial Statements of the current year.
- If trade discounts, sales returns incur after the release of the Financial Statements, revenue is derecognized on the Financial Statements of the following year.

### **17. Borrowing costs**

Borrowing costs are interest and other costs that the Corporation directly incurs in connection with the borrowing.

Borrowing costs are recorded as an expense when it is incurred. In case the borrowing costs are directly attributable to the construction or the production of an asset in progress, which takes a substantial period of time (over 12 months) to get ready for intended use or sales of the asset, these costs will be included in the cost of that asset. To the extent that the borrowings are especially for the purpose of construction of fixed assets and investment properties, the borrowing cost is eligible for capitalization even if construction period is under 12 months. Incomes arisen from provisional investments as borrowings are recognized as a decrease in the costs of relevant assets.

In the event that general borrowings are partly used for the acquisition, construction or production of an asset in progress, the costs eligible for capitalization will be determined by applying the capitalization rate to average accumulated expenditure on construction or production of that asset. The capitalization rate is computed at the weighted average interest rate of the borrowings not yet paid during the year, except for particular borrowings serving the purpose of obtaining a specific asset.

### **18. Expenses**

Expenses are those that result in outflows of the economic benefits and are recorded at the time of transactions or when incurrence of the transaction is reliable regardless of whether payment for expenses is made or not.

Expenses and their corresponding revenues are simultaneously recognized in accordance with matching principle. In the event that matching principle conflicts with prudence principle, expenses are recognized based on the nature and regulations of accounting standards in order to guarantee that transactions can be fairly and truly reflected.

### 19. Corporate income tax

Corporate income tax includes current income tax and deferred income tax.

#### *Current income tax*

Current income tax is the tax amount computed based on the assessable income. The assessable income is different from accounting profit due to the adjustments of temporary differences between tax and accounting figures, non-deductible expenses as well as those of non-taxable income and losses brought forward.

#### *Deferred income tax*

Deferred income tax is the amount of corporate income tax payable or refundable due to temporary differences between book values of assets and liabilities serving the preparation of the Financial Statements and the values for tax purposes. Deferred income tax liabilities are recognized for all the temporary taxable differences. Deferred income tax assets are recorded only when there is an assurance on the availability of assessable income in the future against which the temporarily deductible differences can be used.

Carrying values of deferred corporate income tax assets are considered as of the balance sheet date and will be reduced to the rate that ensures enough assessable income against which the benefits from part of or all of the deferred income tax can be used. Deferred corporate income tax assets, which have not been recorded before, are considered as of the balance sheet date and are recorded when there is certainly enough assessable income to use these unrecognized deferred corporate income tax assets.

Deferred income tax assets and deferred income tax liabilities are determined at the estimated rate to be applied in the year when the assets are recovered or the liabilities are settled based on the effective tax rates as of the balance sheet date. Deferred income tax is recognized in the Income Statement. In the case that deferred income tax is related to the items of the owner's equity, corporate income tax will be included in the owner's equity.

The Corporation shall offset deferred tax assets and deferred tax liabilities if:

- The Corporation has the legal right to offset current income tax assets against current income tax liabilities; and
- Deferred income tax assets and deferred income tax liabilities are relevant to corporate income tax which is under the management of one tax authority either:
  - Of the same subject to corporate income tax; or
  - The Corporation has intention to pay current income tax liabilities and current income tax assets on a net basis or recover tax assets and settle tax liability simultaneously in each future period to the extent that the majority of deferred income tax liabilities or deferred income tax assets are paid or recovered.

### 20. Related parties

A party is considered a related party of the Corporation in case that party is able to control the Corporation or to cause material effects on the financial decisions as well as the operations of the Corporation. A party is also considered a related party of the Corporation in case that party is under the same control or is subject to the same material effects.

Considering the relationship of related parties, the nature of relationship is focused more than its legal form.

(i) The borrowing from Agribank - Trang Bom North Dong Nai Branch is to supplement the working capital for business operations, at interest rates specified in each borrowing acknowledgment. The borrowing term is set out in each borrowing acknowledgment, but not exceeding six months. This borrowing is secured by mortgaging certain tangible fixed assets and construction-in-progress (namely the production line) owned by the Corporation (see Notes No. V.9 and V.11).

(ii) The borrowing from Financing for Healthier Lives, DAC is to meet the Corporation's needs for medical products and services under the business plan approved by the Board of Directors. This borrowing is at the interest rate of USD SR6M plus 6,22826%. The borrowing term is 5 years. The borrowing amount is repaid according to the specific repayment schedule and the first repayment was made on 15 September 2023. This borrowing is secured by all rights, ownership and benefits of the Corporation incurred from the following properties, regardless of whether they are or will be owned by the Corporation, with the pre-tax purchase value recorded in the Contract and the actual payment in VND equivalent to USD 2,500,000.00 at the exchange rate ruling as at the disbursement date:
